Group 6 Meeting Log — Project 02
EECS 581

Scrum Master/Project Manager: Marie Biernacki

Date: 9/29/2026

Time: 3:00PM-4PM

Location: Eaton 3001

Objective: Project Kickoff + Setup

Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Sabelli Antebi Delmas, Ximena Bustos, Lauren Lee, Jaydine Stiles, Greeshma Kunduri

Tasks Allocated:

- All members:
    - Document UI issues/glitches via screenshots or screenrecording
    - Individuals take screenshots and provide a description of what is not working
    - broken on mac/linux
- Kaitlyn: will review main branch
    - likely duplicating main branch and removing UI
    - using our source code UI to determine what is happening/issues with the program
- Who Will Review
    - game_state.py
    - interface.py
    - main.py
    - minesweeper.py

Next meeting: Virtually on Saturday, October 3rd

Date: 10/3/2026

Time: 10:30AM-11:30AM

Location: Virtual

Objective: Project Planning/Allocating Tasks

Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Sabelli Antebi Delmas, Ximena Bustos, Lauren Lee, Jaydine Stiles, Greeshma Kunduri

Tasks Allocated:

- Code & UI Fixes — Lauren (support from Sabelli) **— Tuesday night, Oct 6th**
    - modifying interface.py & main.py to work across platforms
    - review code, make sure it works on windows/mac
    - assuming that if interface works -> underlying program works

- adding Bot UI “template” (something easy to connect) — Sabelli (support from Lauren) **— Tuesday night, Oct 6th**
    - template/guide — Marie
    - pop up menu to select AI difficulty

- Bot Foundation/Infrastructure — Marie will make outline/template (3 templates) — **Sunday night, Oct 4th**
    - code template/comments for how to make a bot/reinforcement learning — Jaydine — **Sunday night, Oct 4th**
    - Easy Solver — Kaitlyn (support from Jaydine) — **Thursday night, Oct 8th**
    - Medium Solver — Greeshma — **Thursday night, Oct 8th**
    - Hard Solver — Jaydine — **Thursday night, Oct 8th**
        - 3 different files to begin with, then merge later on?

- Custom Enhancements — **Thursday night, Oct 8th**
    - choose between either — Ximena
    - timer with high score — easiest??
        - timer + UI changes
    - Difficulty Levels
    - Reveal safe mine (Hints)

Next Meeting: Tuesday, Oct 6th in Eaton 3001

Date: 10/6/2026

Time: 3PM - 4PM

Location: Eaton 3001

Objective: Project Status Updates

Team Members Present: Kaitlyn Bedgood, Marie Biernacki, Ximena Bustos, Lauren Lee, Jaydine Stiles, Greeshma Kunduri

Tasks Allocated:

- Questions/Comments/Concerns on connecting to the forked repo? Any issues?

- Code & UI Fixes
    - check in w/ Lauren
        - adding a 0 for uncovered/revealed cells

- Bot UI Components
    - check in w/ Sabelli
    - main will need to be updated

- Custom Enhancements: timer w/ high score
    - check in w/ Ximena
    - updating interface and main
        - should track the current session high score, will be visible when restarting the game

- Who would like to be in charge of testing the final product?
    - Assuming Kaitlyn/Jaydine
    - everyone all check across OSs

Reminders:
- Individual hours need to be filled in by Saturday night?

Friday Night Testing
